ARC 3D

Design and Engineering
Solutions

About Us

We are a new technology company whose expertise is in the 3D design and modelling industry. Our secret to success is creating computer generated models and 3D printed models for you to reflect the final build of a project right before it even begins!

Our business is structured around our clients in both Commercial and Residential projects. Whether it be a warehouse, house renovation, new home build, duplex design, or off plan apartment we cater to all our clients.

Our Founder Michael Zanuttini is a Civil Engineer whom specializes in Structural design. His passion for architecture and structural design is affluent in every project.

It is from **your** imagination and our passion that we are able to create 3D models that enhance our visualization of what could be possible.

Services

We offer you services in commercial and residential as follows:

- Floor Plans:
- 3D Rendering
- 3D Scale Modelling

From Granny Flats, Homes, Duplexes, Offices, and Warehouses we do it all.

Floor Plans

Floor plans are tailored to your needs. Drawn to scale and shows the relationships between rooms, spaces, traffic patterns, and other physical features at each level of a structure.

3D Rendering

From floor plan to 3D Design and Rendering, enhancing your vision of architecture from ceiling heights, landscaping and windows we give the perfect picture.

3D Scale Modelling

We provide 3D printed modelling service where you can touch and feel the real design **BEFORE COMPLETION!** This gives you the ability to visualize your future project. Our scales range from 1:50, 1:100, and 1:200.

Pricing

Floor plans and 3D rendering start from as little as \$200 and our 3D Scale Models start from \$350 depending on complexity, size, and scale.

ARC 3D also provides up to 3 minor changes to your design 100% Free.

Additionally clients purchasing two or more scale models of the same model we offer a discount.
